Auto Collision Job Information

PROGRAM DESCRIPTION

The Automotive Collision Repair Technology Program is a master certified program through NATEF (National Automotive Technicians Education Foundation) ASE (Automotive Service Excellence). Upon completion of these courses the student is prepared to take the ASE test for that subject. Students are taught by ASE certified instructors. All courses are taught with the aid of ICAR'S (Inter-Industry Conference on Auto Collision Repair) advanced technician curriculum. These courses have been designed for the entry-level technician and technicians already employed in the industry. Individual courses may be taken if the pre-requisites have been met.
